

Are You Absolutely Sure ...

That You can Access the Cash in your Home?
Think Again.

Fact #1: Equity is NOT easy to get at!

Sadly, today's seniors are finding it almost impossible to tap into the equity in their home because of stringent qualifications. Fortunately, a Reverse Mortgage is the answer because you don't need a job. All you need is sufficient equity in your home and enough residual income to qualify.

Fact #2: Equity is NOT safe!

Home values are volatile and can depreciate quickly. This limits your ability to access the cash in your home because it's not safe, and can vanish instantly. It's better to be safe, than sorry.

Solution: A Reverse Mortgage can be the Answer.

A reverse mortgage allows for the equity in your home to be converted into spendable equity. These proceeds (your cash) can be used whenever, wherever, and for whatever reason you deem necessary. With a reverse mortgage, you are in control, you call the shots. Helping you enjoy a more comfortable retirement.

A reverse mortgage allows you to stay in your home without making a required monthly mortgage payment. It operates like a traditional loan – keep your taxes, insurance, HOA dues current – and pay back the loan once you sell the home or no longer live in the home. With a reverse mortgage, it's easy to access your cash, save money, and plan for a happy and secure retirement. Don't forget the old saying – It's better to have the money and NOT need it, than to need the money and NOT have it.
